

# 2025 Empowering Health Webinar Series

## Digital Health Technologies & Misinformation: Navigating the Challenges

Program Agenda | June 27, 2025 | 11 am - 12 pm

### 11 AM Welcome and Opening Remarks

Jaleen Johnson, Program Manager, Utah Telehealth Network

This session addresses key issues in telehealth, electronic health records, and data privacy, focusing on guiding communities to reliable health information and clarifying common misconceptions. Topics include identifying trustworthy telehealth providers, understanding benefits and limitations, and best practices for supporting digital health navigation.

#### Learning Objectives:

- 1) Identify reliable telehealth resources and distinguish licensed and unlicensed providers.
- 2) Understand telehealth's benefits, limitations, and privacy considerations.
- 3) Learn strategies to navigate health services and combat misinformation.

### 12 PM Closing Remarks

# About Marylanders Online

**Marylanders Online** is an initiative through the University of Maryland Extension (UME) and the College of Information (INFO) with support from state funding. The Marylanders Online program serves as an accessible digital literacy resource that is working to close the digital divide experienced by the millions of Maryland residents who lack access to the internet, a digital device, or the skills to utilize either. Through the provision of quality resources - from education and training to curricula and tech support - the mission of Marylanders Online is to promote digital literacy, equity, and inclusion throughout the state of Maryland.
